

The Teel logo is positioned in the top right corner of the page. It features the word "Teel" in a bold, italicized, teal-colored sans-serif font. The background of the entire page is a close-up, slightly blurred photograph of numerous white, circular permeate tubes stacked together, creating a pattern of overlapping circles. A teal wavy graphic element is located at the top of the page, partially overlapping the logo.

Knowledgeable. Experienced. Dependable.

PERMEATE TUBES

### Permeate Tubes

Teel offers turnkey production of reverse osmosis permeate tubes with in-house extrusion, machining, and annealing capabilities. This consolidation allows for better quality control and cost saving opportunities, as we can streamline the production process. Our kanban program can offer further efficiencies. Teel's commitment to quality is demonstrated by our ISO 9001 and 13485 certifications. Tubes are manufactured in the USA in Baraboo, Wisconsin.

We can extrude and machine a wide variety of materials in a variety of dimensions, including new and innovative materials. Tubes are available with plastic end sleeves and with specialized packaging.

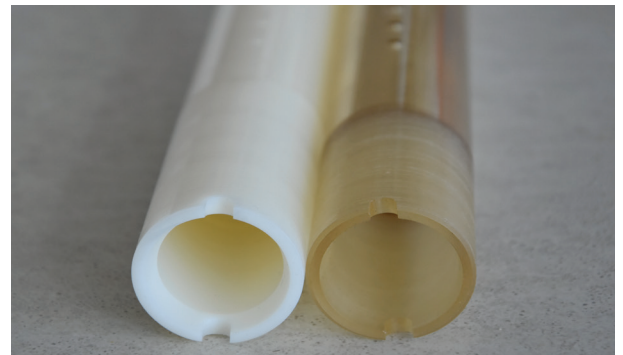

### Filtration Applications

- Food processing
- Dairy processing
- Water purification
- Water desalination

### In-House Capabilities

- Extrusion
- Machining
- Annealing for stress reduction
- Tube sizing of up to 2" OD and 60" lengths

### Material Options

- ABS
- Polysulfone
- Noryl
- PVC
