

TO ALL APPLICANTS:

We appreciate your interest in Teel Plastics. In order for us to make the best employment decisions possible, our application process involves several steps. Each step must be done accurately and completely in order for you to be considered. Please read the following outline before beginning the process to ensure that you understand all requirements and give us the best chance of matching you to an open position.

1. Complete the Teel application. *All fields* must be filled in with as much detail as possible.
2. Fill in the Applicant Summary form. It is critical that you take the time to give us a complete and accurate picture of yourself as an employee, so please answer all questions in detail to the best of your ability.
3. See the receptionist to take the math test. This type of math is used every day at Teel Plastics. You may use a calculator, and there is no time limit.

Pre-employment Drug Screening

For the safety and health of all employees, Teel Plastics is committed to maintaining a drug-free work environment. If you are offered a position with our company, you will be required to pass a pre-employment drug screen.

If you have used drugs recently, you *won't* pass the drug test - please don't waste our time or yours by applying for work at Teel Plastics.
