

Microduct

Teel's microduct is ideal for the installation and placement of small fiber optic cables. The flexible ducts provide a clean, continuous, low-friction pathway.

Features and Options

- Teel Plastics **JetGlide** helps reduce friction, making installation easier
- Inside ribbing for increased fiber cable blowing distance
- Available in blue, orange, green, brown, gray, white, red, black, yellow, violet, pink, and aqua
- Other sizes in addition to those listed below are available upon request

Size (mm)	OD (in)	ID (in)	Weight/Foot (lbs)	Short-Term Bend Radius (in)		Safe Pull Strength* (lbs)
				Supported	Unsupported	
18/14	0.71	0.55	0.067	7	11	325
16/13	0.63	0.51	0.050	6	13	220
16/12	0.63	0.47	0.062	6	13	284
14/10	0.55	0.39	0.051	6	11	230
12.7/10	0.50	0.39	0.033	5	10	144
10/8	0.39	0.31	0.020	4	8	82

*Calculated according to ASTM F1962, Appendix X 1.1.
